Subject: RE: SRF section appendix to NPS Plan

Gene,

It seems logical that we could add this to the 2014 NPS Plan without having to go back out to public review but I will find out for sure.

Alan

Subject: FW: SRF section appendix to NPS Plan

Hi Alan

The attached SRF information was intended to be included in our 2014 NPS Management Program Plan (June 2015). The inclusion of this information would allow SRF evaluation of projects for funding via the SRF NPS sponsorship option.

We were hoping to add this information as an appendix without going through public comment and EPA re-approval of the NPS Management Program Plan.

What are your thoughts?

Let me know if you want to discuss.

thanks

Gene

Subject: SRF section appendix to NPS Plan

Hey Gene,

I have been saying for months, that I would get you an updated section “6.1 Clean Water State Revolving Fund” for the Oregon Nonpoint Source Management Program Plan. Thought I would actually start that conversation.

We agreed back before Don Yon left DEQ that the SRF information currently in the plan was incorrectly included. The SRF program had submitted a revised section 6.1 for inclusion in the plan in September 2014, but for whatever reason that revised version was not incorporated. Unfortunately, the information currently in section 6.1 of the plan is mostly irrelevant and not useful in identifying the types of nonpoint source projects eligible for CWSRF funding.

Because the plan is not expected to be updated for a couple years, you and I agreed to include a revised section 6.1 as an appendix to the plan. As an appendix, the revised information would at least become part of the Plan and would be available when evaluating eligibility of NPS projects for CWSRF funding.

Attached are both the current (incorrect) section 6.1 (PDF format) and the revised section 6.1 (Word format) I want included as an appendix to the Plan. Is it possible to append this information as Appendix 3 to the Plan so that it would become page 95?

We should talk,

Thanks,

Larry
